

Jesuit Volunteer Begins in August

Sarah Kirschbaum is from Janesville, Wisconsin. She recently graduated from Marquette University in Milwaukee, WI, with a degree in Psychology and Family Studies. She loves to travel, reading, running, and spending time outdoors. Sarah is a huge animal lover and specializes in turning big dogs into lap dogs. This year as a JV she is serving at KC Care Clinic in Kansas City, MO where she works as a medical assistant and meets with clients as a case manager.

Jesuit Volunteer Leaving Sends Thanks

KC CARE Clinic friends,

This has easily been, the most amazing year of my life. It has been a blessing to work alongside such genuine, kind, and compassionate people. It's been so inspirational to see an organization live out their mission statement each and every day, and to see that there are people who are committed to treating clients and patients with such respect and dignity both to their face and behind closed doors. I have not witnessed anything less while working here- even when things have been extremely difficult. Thank you for everything you have all taught me here. The experience I have gained is invaluable. Thank you for making me feel welcome and part of the family here; for your support, help, encouragement, and inspiration. This place will always have a special spot in my heart.

~~~~~Heidi Chamula, Jesuit Volunteer.

**New KU Residents Start at KC CARE Clinic**

KC CARE Clinic is fortunate to receive the services of 2 new KU Residents who have been assigned here for Continuity Clinics. Many volunteers remember Dr Jen Schrimsher who served in this position on Monday mornings; Dr Schrimsher graduated in July. Dr Adam Merando will continue with us on Tuesday mornings. Now, Dr Josef Hannah will be holding clinics every Monday morning, and Dr Jake Kenyon will hold clinics Thursday mornings, both at Broadway. Please welcome these new KU Continuity Clinic Residents when you see them!

**Thank You from A Patient**

Thanks to the KC CARE Clinic staff and volunteers for working me in a day earlier than appointment. Appreciated their time, info, treatment, antibiotics and steroids that helped at a time I was in really bad shape and need. Bronchitis and other respiratory issues were keeping me from breathing, working and sleeping. With their help, I am back to work and able to breathe and sleep much better and mostly recovered. Please pass along my appreciation to them and to your organization for the services you provide to me and our community.

Love begins at home, and it is not how much we do... but how much love we put in that action.
