AND THE BEAST GOES ON...

The first "And The Beat Goes On..." event was held last September to fund a brand new heart-health initiative for women at the Kansas City CARE Clinic (formerly the Kansas City Free Health Clinic). Many of the Clinic's female patients might otherwise not have access to quality healthcare services at all, much less heart-health screenings. Can we count on you to stand up for the hearts of Kansas City's mothers, wives, sisters and friends? Click [here](#) to download a sponsorship packet or click [here](#) to register online today! "And The Beat Goes On..." is more than a September Sunday evening event with good food, drinks and friends. It's an opportunity to make a difference. It's an opportunity to build on what we began last year. There are so many more women who need our help. *(To be included on the invitation, sponsorship is due by July 15.)*

The Real Work

It may be that when we no longer know what to do
 we have come to our real work,
 And that when we no longer know which way to go
 we have come to our real journey.
 The mind that is not baffled is not employed.
 The impeded stream is the one that **sings**.
