

Shannan and Marian “toast” Dr John Hall’s 20th Anniversary of volunteering with KC CARE Clinic!!

October is Breast Cancer Awareness Month

For the 10th straight year, water flowing through fountains in the Kansas City metropolitan area will run pink. The event, known as Pink Fountains, is an annual celebration of the lives spared through awareness and quality cancer care, a reminder of the lives lost to breast cancer and a signal to continue the research necessary to tackle the disease.

- Breast cancer is the most common cancer in women.
- More than 200,000 women in the U.S. will be diagnosed with breast cancer this year.
- That's one woman every three minutes

“The start to a better world is our belief that it is possible.”

OCTOBER is Domestic Violence Awareness Month

The Domestic Violence/Sexual Assault Task Force has many activities planned in October. The purpose of these activities is to promote awareness and education about domestic violence in intimate relationships.

Here are the following activities that will be held in October:

1. We have created a poster titled "These Hands Don't Hurt." Staff, volunteers, and patients will make a pledge against domestic violence by writing their name on a paper hand and adding it to the poster. This will be up all month along with several resources on the table for anyone to take.
2. Potty Trainings- These will be educational posters distributed in the bathroom stalls and around other areas of the clinic. There will be a different topic covered each week of October.
3. Jeans Day- All volunteers and staff can pay \$5 to wear jeans. All donations will go to support the local agencies providing services to victims of domestic violence. (Look for the date to be announced soon!)
